Re: 38SFC_D_II and 38ST_D_II Series: Elegance ST 42 II, Astra Duo 38 II, Monarch See-Through 38 II, Wayland See-Through 38 II, Novo Duo 38 II – Cast Iron, and Novo Duo 38 II – Soapstone Wood Heater Models; Certificate of Compliance Number 407-26

Dear Mr. Marcakis:

I am pleased to inform Foyers Suprême Inc. that the above-referenced wood heater models have been approved for certification pursuant to the 2015 New Source Performance Standard (NSPS) for New Residential Wood Heaters, New Residential Hydronic Heaters and Forced-Air Furnaces at 40 CFR Part 60, Subpart AAA (2015 NSPS) by the United States Environmental Protection Agency. Certification under the 2015 NSPS is valid through April 9, 2031. This letter serves as your wood heater Certificate of Compliance.¹ Please refer to the above-referenced Certificate of Compliance number in all future correspondence.

Based on an April 28, 2025,² test report prepared by Services Polytests Inc. demonstrating compliance with the EPA Test Method 28R, the EPA-approved Alternative Test Method (ATM) ALT-154,³ and the ASTM International Test Methods E2515 and E2780, as well as with the

¹ The manufacturer is replacing the model line under Certificate of Compliance 276-20 with the model line under this Certificate of Compliance.

² Revised on October 29, 2025, December 3, 2025, and February 17, 2026.

³ December 13, 2024, (revised on January 21, 2025), letter from Steffan M. Johnson, Group Leader, Measurement Technology Group, Office of Air Quality Planning and Standards to Ken Morgan, Technical

information provided in your in your May 6, 2025,⁴ application, the above-referenced models are certified as meeting the 2015 NSPS. Under the 2015 NSPS and based on PFS-TECO's May 30, 2025,⁵ Certification of Conformity, the models' emission rate of 1.4 g/hr meets the 2020 NSPS particulate matter emissions limit of 2.0 g/hr. The heat output range and overall heating efficiency for the above-referenced models are 25,174 – 25,403 BTU/hr and 70%, respectively. The model line carbon monoxide emission rate is 2.2 g/min.

This Certificate of Compliance is valid for the above-referenced models and cannot be transferred to another model line without applying for another Certificate of Compliance. This Certificate of Compliance allows you to advertise and sell the above-referenced models through April 9, 2031. Thereafter, you may not advertise for sale, offer for sale, or sell wood heaters under this Certificate of Compliance without applying for and obtaining another Certificate of Compliance.

All wood heaters manufactured or sold under this Certificate of Compliance must comply with EPA labeling requirements found at § 60.536. These provisions require each wood heater to have a permanent label affixed to it, including the month and year of manufacture, the model name or number, serial number, certification test emission value, test method, standard met, and compliance certification statement.

In addition, you must comply with all applicable requirements of the regulation, including:

1. Conducting a third-party certifier-approved quality assurance program which ensures that all units within a model line are similar to the wood heater submitted for certification testing in all respects that would affect emissions and are in compliance with the applicable emission limit, pursuant to § 60.533(m);
2. Applying for recertification whenever any change is made to the above-referenced models that affects or is presumed to affect the particulate matter emission rate for the model line, pursuant to § 60.533(k)(1);
3. Providing an owner's manual that includes the information listed in § 60.536(g)(1) with each affected wood heater model offered for sale;

Services Director, OMNI-Test Laboratories, Inc., approving the use of an ATM for demonstrating compliance with the filter weighing procedures as outlined in ASTM E2515-11. A copy of the letter can be found in Appendix 15 of the test report and at https://www.epa.gov/system/files/documents/2025-01/ken-morgan-astm-e2515-particulate-filter-weighing-broadly-applicable-test-method-request_modified-to-qqqq.pdf.

⁴ Revised on November 25, 2025, and December 3, 2025

⁵ Revised on November 3, 2025, December 9, 2025, and February 23, 2026.

4. Placing a copy of the full non-Confidential Business Information (non-CBI) certification test report and summary of the test report on the manufacturer's website and available to the public within 30 days after the EPA issues a Certificate of Compliance, pursuant to § 60.533(b)(12). The up-to-date non-CBI certification test report and summary (if later revised) should remain posted on the manufacturer's website for as long as the model line is manufactured and/or offered for sale in the U.S.;
5. Submitting a report to the EPA every two years following issuance of a Certificate of Compliance for each model line. This report must include the sales for each model by state and certify that no changes in the design or manufacture of this model line have been made that require recertification under § 60.533(k);
6. Retaining records and submitting reports as required at § 60.537; and
7. Submitting wood heaters for audit testing if selected by the EPA under §§ 60.533(n)(1)(i) and (2)(i).

Failure to comply with these requirements may result in revoking this Certificate of Compliance and enforcement action, including penalties as specified under the Clean Air Act. Pursuant to the EPA-approved ATM ALT-154, you must also include your approval letter in the certification test report for posting on your website. To promote transparency in implementing the Wood Heater Program, we request that manufacturers submit a copy of the Uniform Resource Locator (URL) or web address where the non-CBI certification test report is posted to WoodHeaterReports@epa.gov within ten (10) days of posting.

Once the EPA has verified that the full non-CBI certification test report has been posted on the manufacturer's website, the Agency will add the above-referenced models to the [EPA-Certified Wood Heater Database](#).

If you have any questions concerning this letter, please contact the Wood Heater Program at WoodHeaterReports@epa.gov.

Sincerely,

Jacqueline Robles Werner
